May 2025

We will meet at the Clubhouse on for the May 8th club meeting.

Bring a comfortable folding chair as we are still developing a furniture plan to replace what was destroyed in TS Helene.

---

## RANGE UPDATES

The gate and badging system are still down for repairs. Donny and Jason were able to purchase toilets and get them connected to water. Jenna I was able to get the well treated and the water is potable. Morgan and Donny were able to get a septic truck out to inspect our system.

The system is functioning and safe. The disciplines are using the 40' container for their hardware.

Make sure to drive at 10mph on the driveway into the Club. We will be installing two rubber speed bumps.

---

## NEW MEMBERS

The following folks have started the process to join the Club:

- Chun Song, Boone
- Nicole Brown, Fleetwood

---

## DISCIPLINE UPDATES

Congratulations to the SDPA and Steel Challenge disciplines with hosting their first competitions of the season.

The trap / skeet teams are still wrestling with hardware and infrastructure challenges, due to TS Helene.

---

## TOPIC OF DISCUSSION

We have seven different Law Enforcement \ ROTC groups requesting to use our club for their qualification events. An option is for them to purchase a departmental membership.

Morgan will discuss our plan for bringing a disciplined system to this issue, and maintaining full accessibility for the members. We support the LE community, but our club cannot become the training solution for various LE agencies. Members must approve our plan.

---

## RANGE UPDATES (CONT)

The Army Corps of Engineers has contracted debris removal companies to clean up public and private land in the County. The EC has requested debris clean up on Meat Camp Creek. We are on the work list. This effort ends in June. We expect for the crews to show up in May or June. I'll try to find out when, if possible.

We are still trying to find an electrical company that has the technical expertise to fix the badge reader and get the gate functioning again. Linked to that effort, we have purchased replacement badges. Members, wear your badge on the range. This will set the example for our new members.

---

## HUGE THANKS TO BOBBY!

Bobby Plemmons has brought his personal tractor out to help fix our ranges. A special "Thanks" to Bobby for helping us with that machine!
