November
2024

There will be NO member Meeting this November. We will host the December member meeting offsite to vote on club officers – location details will be e-mailed in advance of December 12th.

RANGE UPDATES

The **easement / driveway** really took a beating and have been repaired to the point where heavy machinery can access for additional gravel work / repairs.

Club House sustained 4' water / mud and required complete gutting to the concrete walls. The wood paneling will not be replaced, we'll paint the concrete walls.

Various shooting bays **rear berms** had mud slides / boulders manifest.

Rifle Bays had significant gravel displacement and knocked over several shooting rests.

Tractor shed structurally unstable and has been demolished.

Trap throwers have been pulled for service which has graciously been donated!

OFFICER NOMINATIONS

The following members are the current slate of officers for the upcoming year:

- Morgan Shaw - President
- Daniel Tollison – Vice President
- Jenna Isenhour – Secretary
- Donny Mciver – Treasurer
- Terry Julian – Chief Instructor
- Marc Scott – Range Officer
- Jim Brannham – Publicity Officer

If you are interested in serving on the Executive Committee, submit your name for nomination via e-mail – we will vote on each position at the December meeting.

DECEMBER MEMBER MEETING

We will provide additional range updates and present any items needing votes for approval.

We are considering alternatives to rebuilding the tractor shed for storage solutions.

In addition, extra thought is being expended to how we repair the clubhouse to better withstand future flood potential.

EAGLE SCOUT UPDATE

We are very grateful that Aiden's project was converted from rebuilding the handicap ramp to "restoring" the club. Taking the lead on club repair work, he has been collaborating with fellow scouts and Hunter Safety Skills Teammates and making quick work of many projects. A huge blessing of this project is the donation of heavy machinery and supplies / gravel that would have otherwise cost a significant amount from our club reserve funds.

It took a little time for Aiden to get the Eagle project changes approved, but a tremendous amount of progress has been completed in the last week surpassing expectations of all involved!

His efforts were not alone, the club has been well served by numerous members volunteering on several days along with some outstanding cadets from App State – many hands truly has made quick work of several projects – THANK YOU all!
